PROJECTS

MedTech Hemoapp — *An app to help hemophilia clinics*
https://github.com/whediger/hemo-app

This app helps hemophilia clinics manage bleeding events by streamlining communication between patients and nurses. The patients are able to report bleeding events on their phone and the system logs the event in a database. The nurses are immediately notified via a phone text message and are able to manage all events on the system.

Gnomeward Bound — *A Mario-style 2d scrolling game*
https://gnomeward-bound.firebaseapp.com

Made from raw JavaScript, no gaming framework used. Gnomeward Bound is a 2d scrolling game about a gnome who has been left at a the beach and has to find its way back home to a garden. This project is still under construction. <Use the arrow keys to play it>

EXPERIENCE

Stella's Coffeehouse
General Manager
Dec 2014 - April 2016

- Responsible for all general business operations
- Increased gross monthly sales by 10 - 15% year over year for two years
- Improved morale and quality by empowering people to learn and take on responsibilities in order to foster independence
- Brightened the atmosphere by installing additional lighting, repainting(removing graffiti), planting flowers, installing stainless steel and general remodeling

Data Storage Marketing
Quality Assurance Team Leader
1995 - 1997

- Lead 5-8 employees to coordinate operations of cross-departmental teams and monitor project status
- Responsible for the requisition of supplies, equipment, parts, repair services and subcontracted labor
- Improved processes for production, equipment purchasing, product quality, training and efficiency

Odyssey Productions/Ground Zero
Manager
1993 - 1994

- I ran an all-ages cyber smart bar night club with two other people
- We had two Amiga 3000 Virtuality (virtual reality) pods running a two-person shooter game
- It was also a "Smart Bar" - we served drinks containing amino acids and vitamins thought at the time to be a healthy way to enhance cognition, stress resistance and energy levels

TECHNICAL SKILLS

JavaScript
Node.js
Express
Java
UNIX/ CLI
Angular.js
HTML5
CSS3/SCSS
jQuery
API referencing
Git + GitHub

TECHNIQUES

Pair Programming
Feature Driven Development
Distributed Version Control
Agile work environments
Mocha/Chia TDD

EDUCATION
———————————————

I am a lifelong learner with over 200 college credit hours.
